b. X DOCUMENTS NOT IN THE ENGLISH LANGUAGE

A concise explanation of the relevance of all patents, publications, or other information listed that is not in the English language is as follows:

Filed herewith is a decision of the European Patent Office dated December 21, 2007, revoking European Patent No. 1 191 095, which was based upon a divisional application of a European regional phase filing of International application no. PCT/EP97/01192. A concise summary in English of this Decision is provided as follows:

The Appeal Board of the EPO based its decision to revoke this European Patent on the following grounds:

- the sole independent claim extends beyond the content of the original disclosure (i.e. lacks written description), because it does not recite a vapor cleaning step, which was deemed by the Appeal Board to be essential for practicing the invention based upon their interpretation of the original disclosure,
- the sole independent claim extends beyond the content of the original disclosure (i.e. lacks of written description), because the liquid azeotrope preparations are not restricted having the specific concentrations of the components present in the vapor phase of the azeotrope, and
- the term "mechanical agitation" in the sole independent claim was not originally disclosed and thus constituted an impermissible generalization (i.e. lack of written description) of the three disclosed methods for generating an emulsion, namely agitation, transfer-pumping and ultrasound.

No prior art was discussed by the Appeal Board in this Decision, nor was the issue of sufficiency of disclosure (i.e. enablement) raised.

c.      ENGLISH LANGUAGE SEARCH REPORT

An English language version of the search report or action that indicates the degree of relevance found by the foreign office is attached, thereby satisfying the requirement for a concise explanation. See MPEP 609(III)(A)(3).
